SUBJECT INDEX

Adaptive systems

Concept of Adaptability in Space Modules, Miguel Cooper, AS Oct. 90 p235-240.

Aerospace engineering

Low-Frequency Spectral Representation of Space Shuttle Flight Data, Pol D. Spanos, Lance J. Mushung, Dudley A. Nelson and David A. Hamilton, AS Apr. 90 p137-154.

Astronomy

Lunar Astronomical Observatories: Design Studies, Stewart W. Johnson, Jack O. Burns, Koon Meng Chua, Nebojsa Duric, Walter H. Gerstle and G. Jeffrey Taylor, AS Oct. 90 p211-222.

Automation

FMS Approach to Construction Automation, Leonhard E. Bernold, Dulcy M. Abraham and Davis B. Reinhart, AS Apr. 90 p108-121.

Beams

Dynamic Viscoelastic Beam Model For Finite Element Method, Joseph J. Rencis, Sunil Saigal and Kwo-Yih Jong, AS Jan. 90 p19-29.

Beams, supports

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Civil engineering

Motion Control of Space Structures, Larry Silverberg, AS Oct. 90 p223-234.

Civil engineers

A Different Race: Philosophy, Raymond S. Leonard, AS July 90 p186-204.

Collapse

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Composite materials

Analysis of Hybrid Laminated Composite Plates, S. P. Joshi and N. G. R. Iyengar, AS Jan. 90 p78-90.

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Composite structures

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Stress Analysis of Orthotropic Plate on Elastic Foundation with Transverse Point Load, Chun-Fu Chen and Zafer Gürdal, AS Jan. 90 p64-77.

Compression

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Computation

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Connections

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Construction

Concepts for Lunar Outpost Development, Philip J. Richter, Richard M. Drake, Ram P. Kumar and Thomas L. Anderson, AS Oct. 90 p241-250.

FMS Approach to Construction Automation, Leonhard E. Bernold, Dulcy M. Abraham and Davis B. Reinhart, AS Apr. 90 p108-121.

Science and Engineering for Space: Technologies From Space 88, Stewart W. Johnson and John P. Wetzel, AS Apr. 90 p91-107.

Construction methods

Concepts for Lunar Outpost Development, Philip J. Richter, Richard M. Drake, Ram P. Kumar and Thomas L. Anderson, AS Oct. 90 p241-250.

FMS Approach to Construction Automation, Leonhard E. Bernold, Dulcy M. Abraham and Davis B. Reinhart, AS Apr. 90 p108-121.

Hedratecture and Expandable Platform, Joseph J. Mangan, AS July 90 p155-172.

Control

Motion Control of Space Structures, Larry Silverberg, AS Oct. 90 p223-234.

Control systems

Space Structures: Issues in Dynamics and Control, H. Benaroya and M. L. Nagurka, AS Oct. 90 p251-270.

Crack propagation

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Critical load

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Data analysis

Low-Frequency Spectral Representation of Space Shuttle Flight Data, Pol D. Spanos, Lance J. Mushung, Dudley A. Nelson and David A. Hamilton, AS Apr. 90 p137-154.

Deflection

Analysis of Hybrid Laminated Composite Plates, S. P. Joshi and N. G. R. Iyengar, AS Jan. 90 p78-90.

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Delamination

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Dynamic models

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Dynamic response

Dynamic Viscoelastic Beam Model For Finite Element Method, Joseph J. Rencis, Sunil Saigal and Kwo-Yih Jong, AS Jan. 90 p19-29.

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Time-Series Models for Nonlinear Systems, Joseph J. Hollkamp and Stephen M. Batill, AS Oct. 90 p271-284.

Dynamics

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Motion Control of Space Structures, Larry Silverberg, AS Oct. 90 p223-234.

Earthquake engineering

Dynamic Viscoelastic Beam Model For Finite Element Method, Joseph J. Rencis, Sunil Saigal and Kwo-Yih Jong, AS Jan. 90 p19-29.

Elastic foundations

Stress Analysis of Orthotropic Plate on Elastic Foundation with Transverse Point Load, Chun-Fu Chen and Zafer Gürdal, AS Jan. 90 p64-77.

Engineering

Science and Engineering for Space: Technologies From Space 88, Stewart W. Johnson and John P. Wetzel, AS Apr. 90 p91-107.

Failure modes

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Fiber reinforced materials

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Filters, digital

Low-Frequency Spectral Representation of Space Shuttle Flight Data, Pol D. Spanos, Lance J. Mushung, Dudley A. Nelson and David A. Hamilton, AS Apr. 90 p137-154.

Finite element method

Analysis of Hybrid Laminated Composite Plates, S. P. Joshi and N. G. R. Iyengar, AS Jan. 90 p78-90.

Dynamic Viscoelastic Beam Model For Finite Element Method, Joseph J. Rencis, Sunil Saigal and Kwo-Yih Jong, AS Jan. 90 p19-29.

Flexibility

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Fractures

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Framed structures

Hedratecture and Expandable Platform, Joseph J. Mangan, AS July 90 p155-172.

Frames

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Funding allocations

A Different Race: Philosophy, Raymond S. Leonard, AS July 90 p186-204.

Government policies

A Different Race: Philosophy, Raymond S. Leonard, AS July 90 p186-204.

Identification

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Impact

Stress Analysis of Orthotropic Plate on Elastic Foundation with Transverse Point Load, Chun-Fu Chen and Zafer Gürdal, AS Jan. 90 p64-77.

Impact loads

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Impact tests

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Infrastructure

A Different Race: Philosophy, Raymond S. Leonard, AS July 90 p186-204.

Innovation

FMS Approach to Construction Automation, Leonhard E. Bernold, Dulcy M. Abraham and Davis B. Reinhart, AS Apr. 90 p108-121.

Lunar Astronomical Observatories: Design Studies, Stewart W. Johnson, Jack O. Burns, Koon Meng Chua, Nebojsa Duric, Walter H. Gerstle and G. Jeffrey Taylor, AS Oct. 90 p211-222.

Laminates

Analysis of Hybrid Laminated Composite Plates, S. P. Joshi and N. G. R. Iyengar, AS Jan. 90 p78-90.

Modal analysis

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Models

Time-Series Models for Nonlinear Systems, Joseph J. Hollkamp and Stephen M. Batill, AS Oct. 90 p271-284.

Modular structures

Concept of Adaptability in Space Modules, Miguel Cooper, AS Oct. 90 p235-240.

Concepts for Lunar Outpost Development, Philip J. Richter, Richard M. Drake, Ram P. Kumar and Thomas L. Anderson, AS Oct. 90 p241-250.

Moon

Concept of Adaptability in Space Modules, Miguel Cooper, AS Oct. 90 p235-240.

Concepts for Lunar Outpost Development, Philip J. Richter, Richard M. Drake, Ram P. Kumar and Thomas L. Anderson, AS Oct. 90 p241-250.

Hedratecture and Expandable Platform, Joseph J. Mangan, AS July 90 p155-172.

Lunar Astronomical Observatories: Design Studies, Stewart W. Johnson, Jack O. Burns, Koon Meng Chua, Nebojsa Duric, Walter H. Gerstle and G. Jeffrey Taylor, AS Oct. 90 p211-222.

Science and Engineering for Space: Technologies From Space 88, Stewart W. Johnson and John P. Wetzel, AS Apr. 90 p91-107.

Motion

Motion Control of Space Structures, Larry Silverberg, AS Oct. 90 p223-234.

Nonlinear analysis

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Nonlinear systems

Time-Series Models for Nonlinear Systems, Joseph J. Hollkamp and Stephen M. Batill, AS Oct. 90 p271-284.

Orthotropic plate

Stress Analysis of Orthotropic Plate on Elastic Foundation with Transverse Point Load, Chun-Fu Chen and Zafer Gürdal, AS Jan. 90 p64-77.

Oscillators

Time-Series Models for Nonlinear Systems, Joseph J. Hollkamp and Stephen M. Batill, AS Oct. 90 p271-284.

Parameters

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Penetration resistance

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Perturbation

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Plates

Analysis of Hybrid Laminated Composite Plates, S. P. Joshi and N. G. R. Iyengar, AS Jan. 90 p78-90.

Platforms

Hedratecture and Expandable Platform, Joseph J. Mangan, AS July 90 p155-172.

Predictions

Time-Series Models for Nonlinear Systems, Joseph J. Hollkamp and Stephen M. Batill, AS Oct. 90 p271-284.

Production engineering

FMS Approach to Construction Automation, Leonhard E. Bernold, Dulcy M. Abraham and Davis B. Reinhart, AS Apr. 90 p108-121.

Professional role

A Different Race: Philosophy, Raymond S. Leonard, AS July 90 p186-204.

Projectile impact

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Projectiles

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Rigid frames

Hedratecture and Expandable Platform, Joseph J. Mangan, AS July 90 p155-172.

Shock

Low-Frequency Spectral Representation of Space Shuttle Flight Data, Pol D. Spanos, Lance J. Mushung, Dudley A. Nelson and David A. Hamilton, AS Apr. 90 p137-154.

Space exploration

Concept of Adaptability in Space Modules, Miguel Cooper, AS Oct. 90 p235-240.

A Different Race: Philosophy, Raymond S. Leonard, AS July 90 p186-204.

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Lunar Astronomical Observatories: Design Studies, Stewart W. Johnson, Jack O. Burns, Koon Meng Chua, Nebojsa Duric, Walter H. Gerstle and G. Jeffrey Taylor, AS Oct. 90 p211-222.

Science and Engineering for Space: Technologies From Space 88, Stewart W. Johnson and John P. Wetzel, AS Apr. 90 p91-107.

Space probes

A Different Race: Philosophy, Raymond S. Leonard, AS July 90 p186-204.

Space shuttle orbiter

Low-Frequency Spectral Representation of Space Shuttle Flight Data, Pol D. Spanos, Lance J. Mushung, Dudley A. Nelson and David A. Hamilton, AS Apr. 90 p137-154.

Science and Engineering for Space: Technologies From Space 88, Stewart W. Johnson and John P. Wetzel, AS Apr. 90 p91-107.

Space Structures: Issues in Dynamics and Control, H. Benaroya and M. L. Nagurka, AS Oct. 90 p251-270.

Space structures

Concept of Adaptability in Space Modules, Miguel Cooper, AS Oct. 90 p235-240.

Concepts for Lunar Outpost Development, Philip J. Richter, Richard M. Drake, Ram P. Kumar and Thomas L. Anderson, AS Oct. 90 p241-250.

Hedratecture and Expandable Platform, Joseph J. Mangan, AS July 90 p155-172.

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Motion Control of Space Structures, Larry Silverberg, AS Oct. 90 p223-234.

Science and Engineering for Space: Technologies From Space 88, Stewart W. Johnson and John P. Wetzel, AS Apr. 90 p91-107.

Space Structures: Issues in Dynamics and Control, H. Benaroya and M. L. Nagurka, AS Oct. 90 p251-270.

Spacecraft

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Spectra

Low-Frequency Spectral Representation of Space Shuttle Flight Data, Pol D. Spanos, Lance J. Mushung, Dudley A. Nelson and David A. Hamilton, AS Apr. 90 p137-154.

Spectral analysis

Low-Frequency Spectral Representation of Space Shuttle Flight Data, Pol D. Spanos, Lance J. Mushung, Dudley A. Nelson and David A. Hamilton, AS Apr. 90 p137-154.

Stability

Stability and Collapse of Semirigidly Connected Portal Frames, Salah E. Mohamed and G. J. Simitses, AS Jan. 90 p46-63.

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Stiffness

Analysis of Hybrid Laminated Composite Plates, S. P. Joshi and N. G. R. Iyengar, AS Jan. 90 p78-90.

Stress analysis

Stress Analysis of Orthotropic Plate on Elastic Foundation with Transverse Point Load, Chun-Fu Chen and Zafer Gürdal, AS Jan. 90 p64-77.

Structural analysis

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Structural control

Space Structures: Issues in Dynamics and Control, H. Benaroya and M. L. Nagurka, AS Oct. 90 p251-270.

Structural design

Lunar Astronomical Observatories: Design Studies, Stewart W. Johnson, Jack O. Burns, Koon Meng Chua, Nebojsa Duric, Walter H. Gerstle and G. Jeffrey Taylor, AS Oct. 90 p211-222.

Structural dynamics

Space Structures: Issues in Dynamics and Control, H. Benaroya and M. L. Nagurka, AS Oct. 90 p251-270.

Structures

Time-Series Models for Nonlinear Systems, Joseph J. Hollkamp and Stephen M. Batill, AS Oct. 90 p271-284.

Systems engineering

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Technology

Science and Engineering for Space: Technologies From Space 88, Stewart W. Johnson and John P. Wetzel, AS Apr. 90 p91-107.

Technology transfer

Concepts for Lunar Outpost Development, Philip J. Richter, Richard M. Drake, Ram P. Kumar and Thomas L. Anderson, AS Oct. 90 p241-250.

FMS Approach to Construction Automation, Leonhard E. Bernold, Dulcy M. Abraham and Davis B. Reinhart, AS Apr. 90 p108-121.

Telescopes

Lunar Astronomical Observatories: Design Studies, Stewart W. Johnson, Jack O. Burns, Koon Meng Chua, Nebojsa Duric, Walter H. Gerstle and G. Jeffrey Taylor, AS Oct. 90 p211-222.

Tension

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Tests

Interlaminar Fracture of Composites Under Tension and Compression, Erian A. Armanios, Lawrence W. Rehfield, F. Weinstein and Ambur D. Reddy, AS Jan. 90 p30-45.

Time dependence

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Time series analysis

Enhanced Realization/Identification of Physical Modes, Michael J. Roemer and D. Joseph Mook, AS Apr. 90 p122-136.

Time-Series Models for Nonlinear Systems, Joseph J. Hollkamp and Stephen M. Batill, AS Oct. 90 p271-284.

Transverse loads

Stress Analysis of Orthotropic Plate on Elastic Foundation with Transverse Point Load, Chun-Fu Chen and Zafer Gürdal, AS Jan. 90 p64-77.

Turbines

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Velocity

Hypervelocity Impact Penetration Phenomena in Aluminum Space Structures, William P. Schonberg, AS July 90 p173-185.

Vibration

Stability and Response of Rotating Pretwisted Tapered Blades, T. N. Shiau and Jong-Shing Tong, AS Jan. 90 p1-18.

Viscoelasticity

Dynamic Viscoelastic Beam Model For Finite Element Method, Joseph J. Rencis, Sunil Saigal and Kwo-Yih Jong, AS Jan. 90 p19-29.
